Ready for the Future!

## What You Get...

The Aquamax package from EPS Bison

- Fully automated AQUAmax system designed with the environmentally aware consumer in mind.
- State of the Art technology ..
- Certified by Irish Agrément Board - Cert. No. 06/0221
- Certified by German Technical Approval – No. DIN 4261, Part 2.
- The European market leader conforming to the new EU standard EN12566-3 to be applied to domestic waste-water treatment plants (this EU standard will supersede all other certs, thereby regulating this industry with focus on treatment efficiency)
- Significantly better quality effluent, resulting from a well maintained and serviced AQUAmax, than any other system.
- A low maintenance product that can be operated and maintained by you, the homeowner. (Full demonstration and operating manual supplied)
- Automatic holiday / economy mode.
- A system which does not need to be emptied for maintenance and service due to no components fixed to the bottom of the tank.
- Peace of mind that you are doing your part to help the environment.

*AQUAmax is the most cost effective system for your new home or if you are upgrading your existing septic tank*

## What Your Payment Includes...

Reliable treatment performance through innovative technology.

- First class service and advice from experienced and helpful staff.
- Site survey and assessment of your garden / septic tank.
- An AQUAmax unit designed to accommodate your needs, and the number of occupants in the house.
- Fully automatic pre-wired control unit installed in your house.
- Sampling bottle included for easy collection of discharged final effluent for analysis.
- Reinforced concrete tank(s), provided by an approved Irish Agrément supplier.
- Tank delivered and installed.
- Installation and commissioning by approved AQUAmax technician.
- Reliable and friendly after-sales support.
- Two year warranty on electrical and mechanical parts (excluding the cost of labour and shipping).

### AQUAmax Classic M

## Your Initial Checklist...

New Houses

All of the following can be arranged for you by our friendly efficient staff:

- Site suitability test.
- Percolation design based on results from your site suitability report
- Site specific proposal from EPS Bison
- Annual Maintenance and service contract to be entered into, in line with planning requirements.

### Retrofitting or upgrading your existing Septic Tank

This is site specific and individual requirements need to be assessed.

Please call and arrange an appointment for a site survey to be carried out.

Peace of Mind!
